

**Problem25**: Print numbers from 1 to 100 divisible by 5.

**Code**:

```
#include <stdio.h>
```

```
int main() {  
    int i;
```

```
    printf("Numbers from 1 to 100 divisible by  
5:\n");
```

```
    for(i = 1; i <= 100; i++) {  
        if(i % 5 == 0) {  
            printf("%d ", i);  
        }  
    }
```

```
    return 0;  
}
```

## **Output:**

5 10 15 20 25 30 35 40 45 50 55 60 65 70 75  
80 85 90 95 100
